

**Blind Faith / Impaired Driver \*\* Timed Team Event Rider & Passenger\*\***

This Event is best done on Trike or Quads. (3 & 4 Wheeled Vehicles)

All though I have see it preformed by Bikes, which in most cases ended in the Rider stopping and being disqualified for putting their foot down or crashing which none of us want to do. So we Highly recommend that this game be reserved for Trikes or Quads.

The object of this event is for the Passenger to instruct the Operator (Rider) to maneuver their Vehicle through a Series of Cones set up in an Obstacle course fashion, such as a single or double Figure Eight or Slalom of Cones. The course will depend on how much area and space you have for the set up.

**Here is the Big Challenge as the Operator (Rider) is blindfolded.**

**Now having the Blind Faith to rely on the passenger directions to drive through the Series of cones,, from the start line and Back to the start/Finish line in the fastest Time they can, with out running over or knocking any of the Cones. Which more then likely will happen, as the Best time and least cones crushed will determine the Winning team!**

**There can be one or two runs for each team depending on how much time you wish to allot for this event in the case that each team gets two (2) Attempts, the combined time would determine the winning team.**
