Custom Bike Category Suggestions

Below you will notice that there is 2 Divisions with 3 categories in each Division, the reason for this suggestion is to give the every day bike owner who has done what customizing they can do with what they have and as in most cases the average Bike owner does not have the resources or the Money to compete with Motorcycle Shops, Dealers, Companies and or Manufactures of Custom Bikes, who are in this Line of Business.

Which do Produce and Build many of the Hottest Custom Bikes around as in most cases, these Custom Bikes are built to be sold to customers or for Advertising of their Company, Shop or Dealership.

So by having this option of the 2 Divisions it gives the every day Bike Owner a chance in winning at Show & Shine Event.

Making it a more even playing field for Both the Business Built Customs (Motorcycle /Shop / Company / Dealers / Manufacturers) and Non Business Built Customs for the everyday owner Riders.

Shop / Company / Dealers / Manufacture **Business Built Custom Bikes**

- BBC / Mild:** A Bike that has _____ or Less Modifications
BBC / Wild: A Bike that has between _____ and _____ Modifications
BBC / Radical: A Bike that has _____ or more Modifications

Non Business Built Custom Bikes **Owner Ridden**

- NBBC / Mild:** A Bike that has _____ or Less Modifications
NBBC / Wild: A Bike that has between _____ and _____ Modifications
NBBC / Radical: A Bike that has _____ or more Modifications

You and your committee will have to decide what and how many Modifications you will set for each Category.

There are so many Possible Categories and Sub Categories that can be considered for your Show and Shine that it can be mind boggling to decide. The list goes on & on to pick from, you can even make up new ones for the event you are planning.
